

Environmental Policy

LONDON | NEW YORK | NEW JERSEY | PARIS | FRANKFURT | MADRID | SINGAPORE | HONG KONG | SYDNEY | MELBOURNE | BRISBANE | DUBAI

Global Loan Agency Services Limited's ("GLAS") activities interact with the environment in a variety of ways. To ensure we identify and assess each interaction, we have adopted a lifecycle perspective that helps us understand each of our direct and indirect impacts on the environment.

We recognise our activities can have a significant environmental impact in the key areas of carbon emissions, energy use and generation of waste materials.

The Directors of GLAS are committed to the following:

- Continual improvement in the environmental impact of our business activities.
- Improving the environmental benefits provided by our products and services.
- Preventing pollution.
- Ensuring we comply with all applicable legal, regulatory, contractual, and other third-party requirements.
- Establishing measurable environmental and business objectives that are consistent with our context and strategic direction and addressing associated risks and opportunities.
- Achieving objectives to help minimise our environmental impact.
- Adopting best practices applicable to our activities wherever practicable.

GLAS will meet these commitments by:

- Implementing and maintaining an Environmental Management System that is certified by a UKAS-accredited Certification Body as compliant with ISO 14001.
- Employing processes that identify the aspects of our business that have an environmental impact and assessing the significance of each aspect to enable us to reduce their impact.
- Maintaining an environmental performance improvement programme to enable us to achieve our objectives.
- Ensuring that our employees, suppliers, and customers are aware of their role in supporting our commitments and environmental objectives.
- Training our employees in good environmental protection practices and encouraging employee involvement in environmental improvement initiatives.
- Continually monitoring the environmental impact of our business activities.

This policy is publicly available to interested external parties upon request.

Approved by the Board on 31 January 2025.
